

Let us show you the ABC difference

Diagnostic Support Services

If you're concerned that your child may have autism, we have you covered. ABC provides diagnostic support services that can help you get the answers you need.

We Don't Believe In Wait Lists

Once you are ready, we're ready to help, too. ABC is committed to getting your child started as soon as possible. Apply today and receive a reply in as little as 24 hours.

1:8 Low Clinician-Child Ratio

We maintain a low 1:8 Board Certified Clinician-to-Child ratio, so that your child receives the one on one, personalized attention that they deserve.

No Cancellation Policy

We take your commitment to providing your child with the best possible care seriously. Our commitment to you is that barring extreme natural disasters, we will never cancel therapy.

“My biggest need is to know my child is safe and loved, and at ABC I really feel like he is.”

All children are portrayed by actors and are not active patients at ABC.

We Meet You Where You Are

Who We Are

Action Behavior Centers began with a vision to provide better mental health services to children on the spectrum. It has continued to evolve with the changing landscape of ABA to stay at the forefront of the field.

Our Board Certified Behavior Analysts (BCBAs) are extraordinarily talented Clinicians whose life's work is helping children on the Autism Spectrum live rich, happy lives in which they contribute to and enhance the world around them. **We are here to help your child reach their full potential.**

What We Do

Applied Behavior Analysis

Applied Behavior Analysis (ABA) is the leading approach to improving your child's development. But what is it? We are leaders in the field of ABA and understand how to apply it to help your child reach their goals. Skills targeted by ABA include:

- **Adaptive Living Skills**
(feeding, toileting, bathing)
- **Communication Skills**
(expressive and receptive language)
- **Social Skills**
(initiating conversation, interactive play)
- **School Readiness**
(imitation, matching, categorizing)
- **Reducing Maladaptive Behavior**
(aggression, self-injury, property destruction)

Our programs are tailored to individual needs and goals

Center-Based Therapy

Center-Based therapy allows for children to practice school-readiness, peer play, and social skills throughout their structured schedule.

Our state-of-the-art facilities are dedicated to ABA therapy, with areas and individualized rooms for focused learning, and indoor and outdoor play spaces.

ABC At Home

An at-home environment allows for generalization of self-help and adaptive skills within real-life scenarios alongside more frequent family guidance. ABC at Home sets clients up for success with 1:1 support from a Registered Behavior Technician in a familiar home setting.

“ Action Behavior Centers have been an absolute lifeline for our family. ”
- Parent testimonial

Getting started with ABC is as simple as 1, 2, 3

1 Connect With Our Team

Call or email us, or submit a New Client Application online at actionbehavior.com

This secure form takes about 3 minutes to complete and is the first step to connect with us about services, benefits and beginning therapy.

2 Get to Know Us

We accept most insurance providers. Tour our facility, meet our team, and get to know each other. From the first phone call, through every milestone.

We are in this together. We are connected.

3 Assessment and Therapy

We will set up an assessment meeting where our BCBAs will identify developmental goals for your child's unique needs. We will welcome your child to a dynamic and supportive environment of ABA therapy!
